NOTIFICATION

January 29, 2013

Uttarakhand Electricity Regulatory Commission (Release of new LT Connections, Enhancement and Reduction of Loads) Regulations, 2013

No. F-9(12)/RG/UERC/2013/1466--In exercise of powers conferred under Section 181 read with Section 45 3(b) and Section 46 of the Electricity Act 2003, and all powers enabling it in that behalf, Uttarakhand Electricity Regulatory Commission hereby makes the following Regulations:

1. Short title, Commencement and Application:

- (1) These Regulations may be called the Uttarakhand Electricity Regulatory Commission (Release of new LT Connections, Enhancement and Reduction of Loads) Regulations, 2013.
- (2) These Regulations shall come into force on the date of the publication in the official Gazette. However, the Applicants, who have deposited the requisite charges, prior to notification of these new regulations, shall be covered under the old Regulations namely UERC (Release of new LT Connections, Enhancement and Reduction of Loads) Regulations, 2007.
- (3) These Regulations extend to the whole State of Uttarakhand.
- (4) These regulations will apply to only LT connections having load upto 75 kW/88kVA/100BHP and will cover grant of new connections and of increase or decrease of loads already sanctioned.
- (5) With the coming into force of these Regulations, UERC (Release of new LT Connections, Enhancement and Reduction of Loads) Regulations, 2007 shall stand repealed.

2. Definitions :

In these Regulations, unless the context otherwise requires:

- (1) "Developer/Builder" means a person or company or organisation or authority that undertakes construction of residential, commercial or industrial complex ;
- (2) "Low Tension (LT)" means the voltage of 230 volts between phase and neutral or 400 volts between any two phase under normal conditions subject to the percentage variation permissible under the Electricity Rules;
- (3) "Outstanding dues" means all dues against a premises at the time of disconnection plus late payment surcharge subject to section 56(2) of the Electricity Act, 2003;

- (4) "Rules" mean the Indian Electricity Rules 1956 or their successor rules framed under Section 53 of the Electricity Act, 2003;
- (5) All words and expressions used and not defined in these regulations but defined in the Electricity Act, 2003 shall have the meaning assigned to them in the said Act.

3. Conditions for grant of connections :

- (1) The licensee shall prominently display on its website and in all its offices details of places where Applications for new connection are accepted on its behalf, the detailed procedure for grant of a new connection and the complete list of documents required to be furnished along with such Applications. Normally no document, which has not been so listed, will be required and shall be asked for. Initial security amount, cost of service line charges, normative overhead line charges and normative cost of transformer to be deposited by the Applicant in accordance with Tables 1 to 4 given in regulation 5(10) of these Regulations shall also be prominently displayed.
- (2) Where the Applicant has purchased an existing property whose electricity connection has been disconnected, it shall be the duty of the Applicant to verify that the previous owner has paid all dues and has obtained "no-dues certificate" from the Licensee. In case such "no-dues certificate" has not been obtained by the previous owner, the new owner, before purchase of property, may approach the concerned officer of the Licensee for such a certificate. The licensee shall acknowledge the receipt of such request and shall either intimate in writing the dues outstanding on the premises, if any, or issue the "no-dues certificate" within one month from the date of receipt of such Application. In case the Licensee does not intimate the outstanding dues or issue the "no-dues certificate" within this time, new connection on the premises shall not be denied on ground of outstanding dues of the previous consumer. In such an event, the licensee shall have to recover his dues from previous consumer as per provisions of law.
- (3) Where a property has been legitimately sub-divided, the outstanding dues for the consumption of electricity on earlier undivided property, if any, shall be divided on pro-rata basis based on area of each sub-divided property.

A new connection to any portion of such sub-divided premises shall be given only after the share of outstanding dues attributed to such legitimately sub-divided premises is duly paid by the Applicant. A Licensee shall not refuse connection to an Applicant only on the ground that dues on the other portion(s) of such premises have not been paid, nor shall the Licensee demand, record of last paid bills of other portion(s) from such Applicant.

- (4) In case of demolition & reconstruction of the entire premises or the building, the existing connection shall be surrendered and agreement terminated. Meter and service line will be removed, and a new connection shall be taken for the reconstructed building, after clearing all dues on the old premises. Temporary power supply from the existing connection shall not be allowed for construction purpose in such cases.
- (5) A connection will be given to a new consumer only with a correct energy meter as provided in the Central Electricity Authority (Installation & Operation of Meters) Regulations, 2006 and the same shall be installed as prescribed in the said regulations.
- (6) In case of Application for Load upto 4 kW

(a) If the premises is beyond 40 meters from licensee's existing 3 phase LT distribution main:

The licensee shall extend the existing 3 phase LT distribution main by constructing 3 phase 5 wire LT distribution main only and the Applicant shall have to pay, in addition to fixed service line charges, normative charges of LT distribution main, as per Table 1 of Regulation 5(10), depending upon the length of the line required for releasing such connection. Except for rural hilly villages having population less than 10000 as per census 2011 where the licensee may extend the aforesaid 3 phase LT distribution main by constructing single phase LT distribution main for giving such connection in these villages.

(b) If the premises is beyond 40 meters from licensee's existing single phase or two phase LT distribution main:

The extension of existing LT distribution main will be done by constructing single phase or 2 phase LT distribution main by the licensee and the Applicant shall have to pay, in addition to fixed service line charges, normative charges of LT distribution main, as per Table 1 of Regulation 5(10), depending upon the length of the line required for releasing such connection.

- (7) In case of Application for Load above 4 kW and upto 25 kW
- (a) If the existing LT distribution main is of single phase or 2 phase, the licensee shall carry out the necessary conversion of such LT distribution main by 3 phase 5 wire LT distribution main at its own cost for releasing such connection.
- (b) If the premises is beyond 40 meters from licensee's existing 3 phase LT distribution main, the licensee shall carry out extension by constructing 3 phase 5 wire LT distribution main and the Applicant shall have to pay, in addition to fixed service line charges, normative charges, as per Table 2 of Regulation 5(10), depending upon the length of the line required for releasing such connection.
- (8) In case of Application for Load above 25 kW, the connection shall be released only through HVDS system and the Applicant shall have to pay normative charges as per Table 3 of Regulation 5(10).
- (9) In case of PTW connection, if the extension of the LT distribution mains and /or HT main including installation of Distribution Transformer is required for releasing the PTW connection, then the Applicant shall have to pay in addition to fixed service line charges, normative charges of such works, as per Table 4 of Regulation 5(10), depending upon the length of the line required for releasing such connection.
- (10) No Single Point Bulk Supply connection shall be released on LT.

4. Application for new connection :

Any Application for release of a new connection shall be submitted along with documents listed below and shall be processed by the licensee as given hereafter:

- (1) A prospective consumer desirous of obtaining a new electric connection shall make an Application to the licensee for this purpose on the prescribed Application form given in Annexure 1.
- (2) Prescribed Application form can be obtained free of cost from licensee's Sub-divisional office or any other office of the licensee or the same can be download from the official website of the licensee viz. www.upcl.org or even photocopied. The duly filled form can be submitted at the concerned nearest Sub-division/Division office of the licensee.
- (3) The documents required to be submitted along with the Application form are given below:

[a] Proof of Ownership or Occupancy :

The Applicant shall submit any one of the following documents as proof of ownership or occupancy over premises for which the connection is required –

- (i) Copy of sale deed or lease deed or copy of the khasra or khatauni (inclusion of Applicant's name in the khasra or khatauni shall be sufficient for this purpose) or
- (ii) Registered General Power of attorney or
- (iii) Municipal tax receipt or Demand notice or any other related document or
- (iv) Letter of allotment.
- (v) An Applicant who is not an owner but an occupier of the premises shall alongwith any one of the documents listed at (i) to (iv) above also furnish a no objection certificate from owner of the premises.

Provided that in case the Applicant is unable to submit any of the document listed at (i) to (v) above, then the Applicant shall be charged thrice (except for BPL consumers) the amount of security as per Tables 1 to 4 given in Regulation 5(10). The owner of the premises, if different from the Applicant, shall not be liable for payment of any dues against such connection.

[b] Identity Proof :

- If the Applicant is an individual, copy of any one of following documents shall be furnished as identity proof

- (i) Electoral identity card or
 - (ii) Passport or
 - (iii) Driving license or
 - (iv) Photo ration card or
 - (v) Photo identity card issued by Government Agency or
 - (vi) Certificate from village Pradhan or any village level Govt. functionary like Patawari/Lekhpal/Primary school teacher/in-charge of primary health centre etc.
- If the Applicant is a company, trust, school/college, government department etc, Application shall be signed by competent authority, like Branch Manager, Principal, Executive Engineer along with relevant resolution/authority letter of the institution concerned etc.

[c] Undertaking :

An undertaking in the format given in Annexure 1.1 certifying that the wiring and other electrical works in the premises has been done in accordance with the provisions of the applicable Act /Rules & Regulations.

- (4) On receipt of duly filled Application form from the Applicant, the authorized officer of the licensee shall check the Application form and deficiencies, if any, observed in the Application shall be got rectified from the Applicant immediately.
- (5) No Application for new connection shall be returned by the licensee for reasons such as "technically not feasible" or due to any material constraint.

5- Processing of an Application by the licensee :

- (1) On receipt of an Application form, the licensee shall register the Application by putting a Unique Application Number both on the Application form and the Acknowledgement form and thereafter, issue dated acknowledgement of the same to the Applicant.
- (2) The licensee shall inspect and test the Applicant's installation, as required of him under Rule 47 of IE Rule 1956, in the presence of the Applicant or his representative within 5 days from the date of receipt of the Application form. Testing of installation shall be done as per procedure laid down in Rule 48 of IE Rules 1956 and the inspecting officer shall maintain a record of test results obtained in the form given at Annexure 1.2 as required of him under Rule 47 of IE Rule 1956. The Licensee shall also ascertain the requirement of extension of distribution mains i.e. overhead line and other associated works as per the Regulations.

If required, the licensee shall conduct the route survey and prepare estimate of the works in accordance with the Regulations within 10 days from the date of receipt of the Application form.

- (3) If upon inspection, the Licensee finds any defect, like the installation having not been completed or bare ends of conductor or joints having not been properly covered with insulating tape or that the wiring is of such nature that it is dangerous to life /property etc., he shall intimate the same to the Applicant on the spot under proper receipt in the form given at Annexure 1.2
- (4) Licensee shall also record correct and full address of the premises, if not provided in the Application, along with land mark near the property and also pole number from where service connection is proposed to be given. This information is necessary for future meter reading and billing.
- (5) The Applicant shall get all the defects removed within 15 days and inform the licensee in writing under acknowledgement. In case Applicant fails to remove such defects or fails to inform the licensee about removal of the defects, the Application shall stand lapsed and Applicant will have to apply afresh.
- (6) Upon receipt of information from Applicant about removal of defects, the Licensee shall re-inspect and test the installations within 5 days from receipt of such information and if the defects pointed out earlier are found to persist, the licensee shall again record the same in

the form given at Annexure 1.2 and hand over a copy of the same to Applicant or his representative available on site. The Application shall then stand lapsed and Applicant shall be informed accordingly in writing under acknowledgement. If the Applicant feels aggrieved by this action of the licensee, he may appeal to the Electrical Inspector, whose verdict in the matter will be final and binding.

- (7) Licensee shall also ascertain whether any dues are outstanding on the premises, and if so, the licensee shall issue a demand note within 5 days from date of receipt of Application form giving full details of such outstanding amount. The Applicant shall be required to deposit outstanding dues within 15 days failing which his Application shall lapse and the Applicant shall be informed accordingly in writing under acknowledgement.
- (8) If on inspection no deficiency is found or the deficiencies are found to have been removed and there are no outstanding dues or the same have been cleared, the Licensee shall sanction the load, as applied for, by the Applicant (except for Residential/Non Residential Complex, Multiplex, Malls etc. where the load shall be determined as per the norms specified in Annexure 3 of these Regulations) and intimate the same to the Applicant in writing within 5 days of receipt of Application form.
- (9) In case Applicant does not receive any deficiency note or demand note for the outstanding dues within 5 days from the date of Application, the load, as per sub-regulation hereinabove, shall be deemed to have been sanctioned and licensee shall not deny grant of the connection on these grounds.
- (10) Within 5 days from sanction of the load, the licensee shall inform estimate of the works based on the prescribed charges given in tables below and the Applicant shall deposit the aforesaid charges in cash or through demand draft.

Table-1: Service Line charges, Overhead line charges and Initial security for loads upto 4 kW

Sl. No.	Contracted Load	Service Line Charges & Overhead line charges			Initial security(Rs./kW)		
		Service line charges (Rs.)		Overhead line charges if premises is beyond 40 meters of the licensee's existing LT distribution main (Rs.)	Domestic	Non-Domestic	Industrial
		Overhead	Under-ground				
1.	BPL consumers	100	-	300	100	-	-
2.	Upto 4 kW	600	1200	Rs. 1000 per 10 meters or part thereof	400	1000	1000

Table 2: Service Line charges, Overhead line charges and Initial security for load above 4 kW and upto 25 kW

Sl. No.	Contracted Load	Service Line Charges & Overhead line charges			Initial security(Rs./kW)		
		Service line charges (Rs.)		Overhead line charges if premises is beyond 40 meters of the licensee's existing LT distribution main (Rs.)	Domestic	Non-Domestic	Industrial
		Over-head	Under-ground				
1.	Above 4 kW and upto 10 kW	1500	3000	Rs 3000 per 10 meters or part thereof	400	1000	1000
2.	Above 10 kW and upto 25 kW	2500	5000				

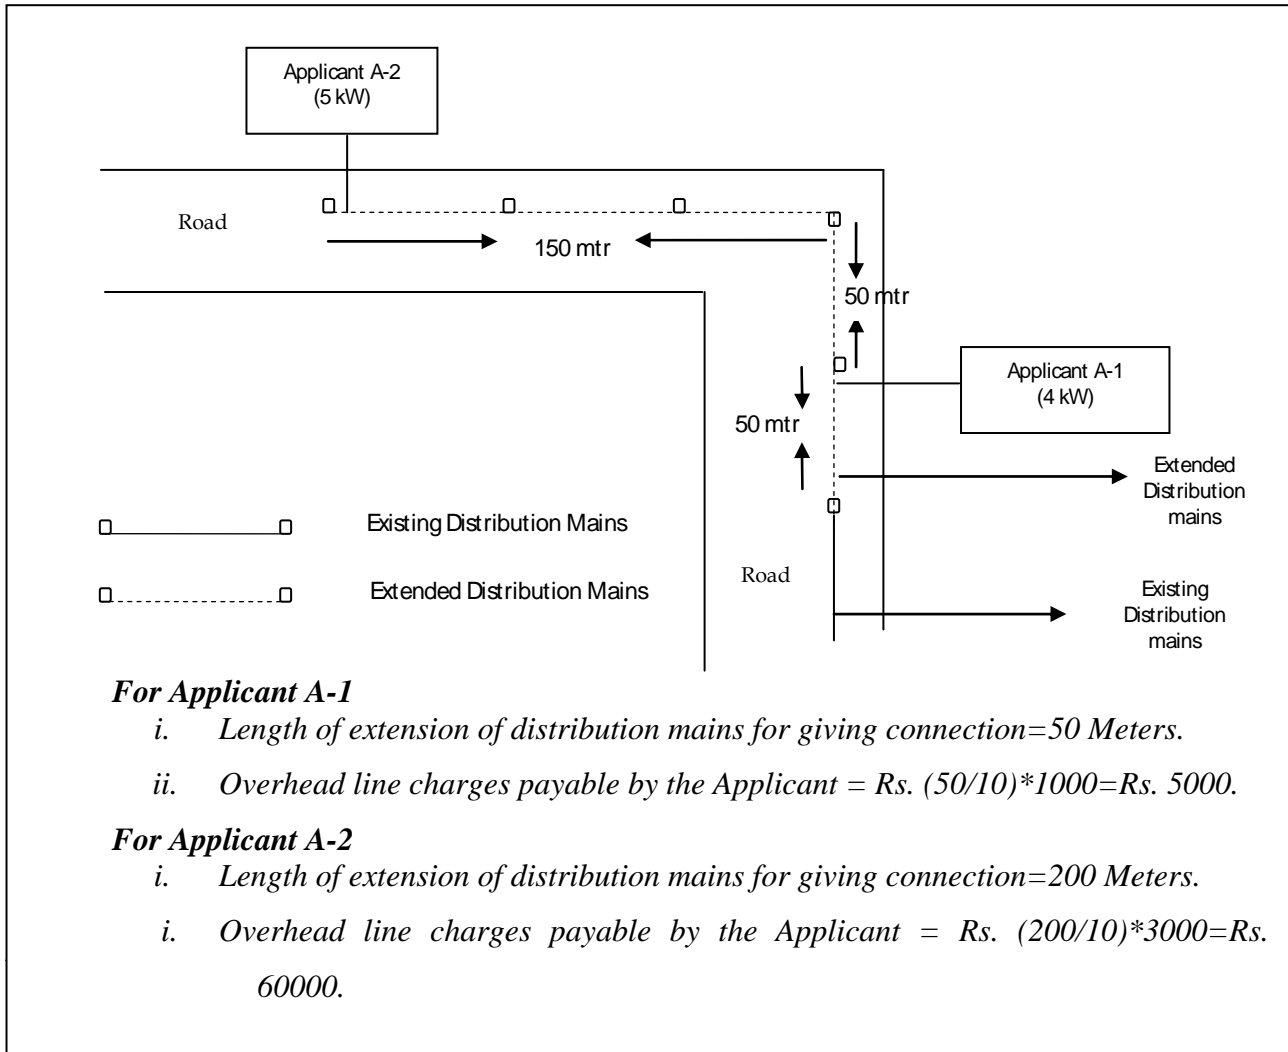

Table 3: Service Line charges, Charges for construction of Overhead 11 kV line/ Substation/Increasing capacity of Transformer and Initial security for load above 25 kW and upto 75 kW (irrespective of the distance of the consumer's premises from the HT/LT Distribution Mains)

S. No.	Contracted load	Service Line Charges, Charges for construction of Overhead 11 kV line/ Substation/Increasing capacity of Transformer			Initial security(Rs./kW)		
		Service line charges (Rs.)		Charges for construction of Overhead 11 kV line/Substation/Increasing capacity of Transformer (Rs.)	Domestic	Non-Domestic	Industrial
		Overhead	Underground				
1	11 kV line Cost						
	Above 25 kW and upto 50 kW	4000	8000	Rs. 3000 per 10 meter or part thereof.	400	1000	1000
	Above 50 kW and upto 75 kW	5000	10000				
2	11 kV Substation Cost						
	Above 25 kW upto 50 kW	Construction of 63 kVA s/s		125000	-		
	Above 50 kW upto 75 kW	Construction of 100 kVA s/s		175000			
3	Increasing capacity of Transformer						
	63 kVA to 100 kVA	-		50000	-		

Table 4: Service Line charges, overhead line charges and Initial security for Private Tube Wells (PTW) having load above 5 B.H.P. and upto 20 B.H.P.

S. No	Contracted load	Service line charges (Rs.)	Charges for extension of existing LT distribution mains and /or HT main including installation of Distribution Transformer (Rs.)	Initial security (Rs/H.P.)
1	5 B.H.P. to 20 B.H.P.	600	Rs. 500 per 10 meters or part thereof	100

- (11) Applicant shall be liable to pay charges for the overhead line, as applicable in accordance with the above Tables, for that length of the LT/HT Distribution Mains actually extended for giving supply to such Applicant.

Illustration: Calculation of the length of extension of the existing Distribution main

(12) The licensee shall be under obligation to energize the connection through a correct meter within 30 days from the :

- date of Application if no defects or outstanding dues are found.
- date of intimation of removal of defects or liquidation of outstanding dues or the date of Application whichever is later.

Explanation—For the purpose of this Regulation, “Application” means the Application complete in all respects in the appropriate form along with documents showing payment of necessary charges and other compliances.

(13) If a new connection is required in which the licensee is required to extend its distribution mains or lay new distribution mains or commission a new substation then the licensee shall inform such Applicant the time required to give the supply and the same shall not exceed:

- 60 days if only extension of distribution mains is required.
- 90 days if commissioning a new substation is also required.
- 180 days if commissioning of new 33/11 kV substation is required.

(14) If the licensee fails to provide connection to an Applicant within the period specified above, he shall be liable to pay penalty @ Rs.10 per Rs 1000 (or part thereof) of the amount deposited by the Applicant subject to a maximum of Rs. 1000 for each day of default.

- (15) Licensee shall submit to the Commission monthly division-wise report containing details of number of connections that were not energised within specified period and shall also deposit with it the penalty accrued on account of such defaults.
- (16) In case his connection has not been energized as per these regulations, an Applicant may lodge a complaint about it with the Consumer Grievance Redressal Forum of respective distribution zones giving full details such as date of Application, date of inspection by licensee etc.

6. Apart from the charges prescribed in the Tables 1 to 4 above, no other charges such as cost of meter, cost of miscellaneous material, extra cable, processing fees etc. shall be payable by the Applicant of a new connection.

7. New Electricity Connection in Residential/Non-Residential Complex, Multiplex, Malls etc. to be constructed by Developer/Builder :

- (1) The responsibility of creating required distribution network within such complex from the installed distribution transformer onwards and upto to the point of connection to the installation of each consumer within such complex shall be that of the developer/ builder who has constructed such complex.
- (2) Based on the normative load to be calculated as per details given in Annexure 3, the capacity of distribution transformer or both 33/11 kV transformers and distribution transformer, as the case may be, to be installed shall be determined by the licensee. The cost of 33/11 kV transformer/ distribution transformer, as the case may be, and associated protection gear shall be borne by the concerned developer/builder. The cost of extending 11 kV or 33 kV line, as the case may be upto the transformer installation shall also be paid by the developer/builder. For this purpose, the cost will be estimated by the distribution licensee and such cost will be payable by the developer/builder subject to recovery/ refund of additional amount on completion of the work.

The developer/builder shall have the option to create the required infrastructure i.e. power/distribution transformer sub-station and LT/HT lines alongwith associated equipments, on its own through a licensed contractor, as per the specifications of the licensee, by paying supervision charges to the licensee at the rate of 15% to be levied on estimated material cost, labour cost and shall not include establishment cost.

- (3) At the time of seeking new connection, the individual Applicant of such complex, shall be required to pay service line charges and initial security deposit only as per tables given in Regulation 5(10) above based on the applicability.
- (4) The land for installation of power/distribution transformers shall be provided by such developer/builder to the distribution licensee, free of cost.

8. Procedure for Enhancement / Reduction in Sanctioned Load :

- (1) Consumers shall be permitted to reduce their contracted load anytime only once in a financial year. However, no restriction shall apply on enhancement of load.
- (2) For this the consumer will apply to the licensee in the form given at Annexure 2 and available free of cost at licensee's Sub-division office alongwith the proof of payment of the latest bill. The form can also be downloaded from the licensee's website.
- (3) The licensee shall register the Application by putting a Unique Application Number both on the Application form and the Acknowledgement form. Thereafter, a written and dated acknowledgement shall be given to the Applicant for receipt of his Application.
- (4) A consumer seeking enhancement in load shall pay initial security applicable to the total enhanced load and if the fixed service line/overhead line /meter etc. is also required to be changed, then the consumer shall have to pay charges as per tables 1 to 4 of Regulation 5(10) above depending upon the applicability. Such charges shall be reduced by the

depreciated cost of the equipment removed, as above, if the cost had been borne by the consumer and they are reusable by the licensee and security amount already paid towards the existing load shall be duly adjusted.

- (5) If the reduction in load sought by the consumer involves change of the existing transformer/ meter etc. then the consumer shall pay to the licensee charges as per Tables 1 to 4 of Regulation 5(10) above depending upon the applicability. Such charges shall be reduced by the depreciated cost of the equipment removed, as above, if the cost had been borne by the consumer and they are reusable by the licensee and the difference between initial security deposit required for the reduced load and that already deposited shall be adjusted in the bills within the next two billing cycles.
- (6) While considering the request for load reduction, the licensee shall first verify the said consumer's actual consumption profile. In case the actual consumption pattern indicates that the load actually utilized in the past is higher than that being demanded, reduction so sought shall not be permitted and the Applicant shall be informed accordingly. Example:

For installations where Electronic meter with MDI has been installed:

<i>Load Category</i>	<i>Industrial</i>
<i>Sanctioned Load</i>	<i>50 kVA</i>
<i>Load Reduction Requested</i>	<i>35 kVA</i>
<i>Max. demand during last 12 months</i>	<i>40 kVA</i>

Since Max Demand during last 12 months as indicated by MDI was higher than requested reduced load, request not to be acceded to.

For Installations where meters do not have MDI

<i>Load category</i>	<i>Domestic</i>
<i>Sanctioned load</i>	<i>7 kW</i>
<i>Load reduction requested</i>	<i>4kW</i>
<i>Max. Monthly consumption during last 12 months</i>	<i>600 kWh</i>
<i>Normative consumption for domestic category*</i>	<i>100 kWh/kW</i>
<i>Load calculated on normative consumption</i>	<i>600/100 = 6 kW</i>

* Normative consumption as indicated for provisional billing in the tariff order

Since average load during last 12 months was higher than requested reduced load, request for load reduction not to be acceded.

- (7) The sanctioned load shall be enhanced/reduced within 30 days after receipt of the Application requiring such enhancement/reduction. In case the enhancement/reduction in load is not affected within the specified period, a penalty of Rs. 500 shall be payable by licensee.

9. Savings :

- (1) Nothing in these regulations shall, expressly or impliedly, bar the Commission dealing with any matter or exercising any power under the Act for which no regulations have been framed, and the Commission may deal with such matters, powers and functions in a manner, as it considers just and appropriate.
- (2) If any difficulty arises in giving effect to these regulations, the Commission may, of its own motion or otherwise, by an order and after giving reasonable opportunity to those likely to be affected by such order, make such provisions, not inconsistent with these regulations, as may appear to be necessary for removing the difficulty.
- (3) The Commission, for reasons to be recorded in writing, may relax or vary any of the provisions of these regulations on its own motion or on an Application made before it by an interested person.

Name and Designation

Annexure 1.1**DECLARATION /UNDERTAKING**

I, _____ son of _____ Resident of _____ (hereinafter referred as "Applicant", which term shall mean and include executors, administrators, heirs, successors and assigns), do hereby swear and declare as under:

Or

The _____, a company incorporated under the provisions of the Companies Act, 1956 having its registered office at _____ (hereinafter referred as "Applicant", which expression shall unless repugnant to the context or meaning thereof, include its successors and assigns), do hereby swear and declare as under:

THAT the Applicant is a lawful occupant of the premises at _____ in support of which the Applicant has enclosed a proof of occupancy.

THAT the Applicant has requested UPCL to provide a service connection at the above-mentioned premises in the Applicant's name for the purpose mentioned in the Application form.

THAT in furnishing the Declaration, the Applicant has clearly understood that should the above statements prove to be false or incorrect at any later stage, the UPCL shall have every right to disconnect supply to the Applicant without any notice and above right to adjust dues against Consumer Security Deposit.

THAT the Applicant hereby agrees and undertakes:

1. To indemnify UPCL against all proceedings, claims, demands, costs, damages, expenses that UPCL may incur by reason of a fresh service connection given to the Applicant.
2. That all the Electrical Works done within the premises are as per Indian Electricity Rules and has been carried out by a licensed electrical contractor (In case Applicant is owner and wiring in the premises is new)

Or

That all the Electrical Work done within the premises are as per Indian Electricity Rules to the best of our knowledge (where Application is for reconnection or Applicant is occupier of the premises)

3. UPCL is indemnify against any loss accrued to the Applicant on this account. Further, Applicant agrees that if there is any harm/loss to the property of UPCL due to the fault in Electrical work within the premises of Applicant, all the liabilities shall be borne by the Applicant.
4. To pay the Electricity consumption bills and all other charges at the rates set out in UPCL's Tariff Schedule and Miscellaneous charges for supply as may be in force from time to time, regularly as and when the same becomes due for payment.
5. To deposit the additional Consumption deposit as revised by UPCL from time to time based on the consumption of the Applicant in preceding year.
6. To abide by the provisions of the Electricity Act, 2003, Electricity Supply Code, Tariff Orders and any other Rules or Regulations notified by UERC, as applicable from time to time.
7. That UPCL shall be at liberty to adjust the electricity consumption charges along with any other charges against the Consumer Security Deposit paid by the Applicant, in the event of termination of the agreement prior to expiry of the contracted period or in case of any contractual default.
8. To be responsible for safe custody of Meters, CTs, Cables etc. provided by UPCL and in case, there is any damage to equipment due to the reasons attributable to Applicant the same shall be chargeable to the Applicant. Further, all repercussions on account of breakage of seals of meters etc. or Direct/Dishonest Abstraction of energy shall be to the account of Applicant, as per the existing laws.

9. To allow clear and un-encumbered access to the meters for the purpose of meter reading and its checking etc.
10. That the Applicant would let UPCL disconnect the Service connection under reference, in the event of any default, non-compliance of statutory provisions and in the event of a legally binding directive by Statutory Authority(s) to effect such an order. This shall be without prejudice to any other rights of UPCL including that of getting its payment as on the date of disconnection.
11. That UPCL shall not be held responsible for any interruption or diminution of supply of Electricity.
12. All the above declaration given by the Applicant shall be construed to an Agreement between UPCL and the Applicant.
